Customized Battery Pack - enook

Introduction

The enook Customized Battery Pack is a high-quality, durable, and versatile battery pack designed to meet the specific needs of our customers. Our battery pack is made with advanced lithium-ion technology and can be customized to fit a variety of applications and scenarios. With our Modifiable Battery Pack, you can easily adjust the voltage and capacity to suit your needs.

Product Details

Brand Name: enook

Our brand, enook, is known for its reliability, efficiency, and outstanding performance in the battery industry. We are committed to providing our customers with the best quality products and services.

Model Number: Lithium Ion Battery Pack

Our Lithium Ion Battery Pack is a powerful and efficient energy storage solution that can be customized according to your specific requirements. It is designed to provide long-lasting power and can be easily integrated into various systems.

Place of Origin: China

All of our battery packs are proudly made in China, a country known for its advanced technology and high-quality products. Our manufacturing facilities are equipped with state-of-the-art machinery and operated by a team of skilled professionals.

Voltage/Capacity: 12V 24V 36V 48V 60V 72V 45Ah

We offer a wide range of voltage and capacity options to meet the diverse needs of our customers. Our battery pack is available in 12V, 24V, 36V, 48V, 60V, and 72V with a capacity of 45Ah. This allows you to choose the perfect combination for your specific application.

Type: Lithium-ion

Weight: Customized

We understand that weight is an important consideration in many applications. That's why we offer customized weight options for our battery pack to ensure it meets your specific requirements.

Certifications: CE, FCC, RoHS

Our Customized Battery Pack is certified by CE, FCC, and RoHS, ensuring that it meets the highest safety and quality standards.

Application and Scenarios

The enook Customized Battery Pack is suitable for a wide range of applications and scenarios, including but not limited to:

Electric vehicles: Our battery pack can power electric cars, scooters, bikes, and other vehicles, offering a clean and sustainable energy solution.

Solar energy storage: The battery pack can store solar energy for later use, making it an excellent choice for off-grid or backup power systems.

Marine and RV: Our battery pack is perfect for powering boats, yachts, and RVs, providing a reliable and efficient energy source for your adventures.

Industrial equipment: Our battery pack can power various industrial equipment, such as forklifts, cranes, and electric tools, increasing efficiency and productivity.

Emergency power supply: With its fast-charging capability and long lifespan, our battery pack is an ideal choice for emergency power backup in homes and buildings.
